API

1. APPLICATION

1.1 GET /Application

getApplication

REQUEST

QUERY PARAMETERS

NAME	TYPE	DESCRIPTION
\$filter	string	
\$top	integer	
\$skip	integer	
\$orderby	string	
\$expand	string	
\$inlinecount	string	

RESPONSE

STATUS CODE - 200: List of Application

RESPONSE MODEL - application/json

```
{
  value [{
    Array of object:
    id*      string
    name*    string
    _objectKey* string
  }]
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

1.2 POST /Application

createApplicationApplication

REQUEST

RESPONSE

STATUS CODE - 201: Created entity

RESPONSE MODEL - application/json

```
{
  id*           string
  name*         string
  _objectKey*   string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

2. APPLICATION('{_OBJECTKEY}')

2.1 GET /Application('{_objectKey}')

getApplicationApplicationById

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A Application.

RESPONSE MODEL - application/json

```
{
  id*      string
  name*    string
  _objectKey* string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

2.2 DELETE /Application('{_objectKey}')

deleteApplicationApplication

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

2.3 PATCH /Application('{_objectKey}')

updateApplicationApplication

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A Application.

RESPONSE MODEL - application/json

```
{
  id*      string
  name*    string
  _objectKey* string
}
```

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

3. APPLICATIONUSER

3.1 GET /ApplicationUser

getApplicationUser

REQUEST

QUERY PARAMETERS

NAME	TYPE	DESCRIPTION
\$filter	string	
\$top	integer	
\$skip	integer	
\$orderby	string	
\$expand	string	
\$inlinecount	string	

RESPONSE

STATUS CODE - 200: List of ApplicationUser

RESPONSE MODEL - application/json

```
{
  value [{
    Array of object:
    id*           string
    application   string
    user          string
    _objectKey*   string
    application_name string
    user_name     string
  }]
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

3.2 POST /ApplicationUser

createApplicationUserApplicationUser

REQUEST

RESPONSE

STATUS CODE - 201: Created entity

RESPONSE MODEL - application/json

```
{
  id*           string
  application   string
  user          string
  _objectKey*   string
  application_name string
  user_name     string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

4. APPLICATIONUSER('{_OBJECTKEY}')

4.1 GET /ApplicationUser('{_objectKey}')

getApplicationUserApplicationUserById

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A ApplicationUser.

RESPONSE MODEL - application/json

```
{
  id*           string
  application   string
  user          string
  _objectKey*   string
  application_name string
  user_name     string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

4.2 DELETE /ApplicationUser('{_objectKey}')

deleteApplicationUserApplicationUser

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

4.3 PATCH /ApplicationUser('{_objectKey}')

updateApplicationUserApplicationUser

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A ApplicationUser.

RESPONSE MODEL - application/json

```
{
  id*           string
  application    string
  user          string
  _objectKey*   string
  application_name string
  user_name     string
}
```

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

5. AUDITLOG

5.1 GET /AuditLog

getAuditLog

REQUEST

QUERY PARAMETERS

NAME	TYPE	DESCRIPTION
\$filter	string	
\$top	integer	
\$skip	integer	
\$orderby	string	
\$expand	string	
\$inlinecount	string	

RESPONSE

STATUS CODE - 200: List of AuditLog

RESPONSE MODEL - application/json

```
{
  value [{
    Array of object:
    id*           integer
    type*         string
    command*      string
    date*         string
    objectData    string
    user          string
    host          string
    agent         string
    server        string
    affectedFields string
    category      string
    application   string
    error         string
    _objectKey*   string
  }]
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

5.2 POST /AuditLog

createAuditLogAuditLog

REQUEST

RESPONSE

STATUS CODE - 201: Created entity

RESPONSE MODEL - application/json

```
{
  id*           integer
  type*         string
  command*      string
  date*         string
  objectData    string
  user          string
  host          string
  agent         string
  server        string
  affectedFields string
  category      string
  application    string
  error          string
  _objectKey*   string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

6. AUDITLOG('{_OBJECTKEY}')

6.1 GET /AuditLog('{_objectKey}')

getAuditLogAuditLogById

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A AuditLog.

RESPONSE MODEL - application/json

```
{
  id*           integer
  type*         string
  command*      string
  date*         string
  objectData    string
  user          string
  host          string
  agent         string
  server        string
  affectedFields string
  category      string
  application   string
  error         string
  _objectKey*   string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

6.2 DELETE /AuditLog('{_objectKey}')

deleteAuditLogAuditLog

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

6.3 PATCH /AuditLog('{_objectKey}')

updateAuditLogAuditLog

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A AuditLog.

RESPONSE MODEL - application/json

```
{
  id*           integer
  type*         string
  command*      string
  date*         string
  objectData    string
  user          string
  host          string
  agent         string
  server        string
  affectedFields string
  category      string
  application   string
  error         string
  _objectKey*   string
}
```

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{  
  error {  
    code    string  
    message string  
  }  
}
```

7. DEVICE

7.1 GET /Device

getDevice

REQUEST

QUERY PARAMETERS

NAME	TYPE	DESCRIPTION
\$filter	string	
\$top	integer	
\$skip	integer	
\$orderby	string	
\$expand	string	
\$inlinecount	string	

RESPONSE

STATUS CODE - 200: List of Device

RESPONSE MODEL - application/json

```
{
  value [{
    Array of object:
    id*           string
    token         string
    platform      string
    model         string
    platformVersion string
    appName       string
    appVersion    string
    _objectKey*   string
  }]
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

7.2 POST /Device

createDeviceDevice

REQUEST

RESPONSE

STATUS CODE - 201: Created entity

RESPONSE MODEL - application/json

```
{
  id*           string
  token         string
  platform      string
  model         string
  platformVersion string
  appName       string
  appVersion    string
  _objectKey*   string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

8. DEVICE('{_OBJECTKEY}')

8.1 GET /Device('{_objectKey}')

getDeviceDeviceById

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A Device.

RESPONSE MODEL - application/json

```
{
  id*           string
  token         string
  platform      string
  model         string
  platformVersion string
  appName       string
  appVersion    string
  _objectKey*   string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

8.2 DELETE /Device('{_objectKey}')

deleteDeviceDevice

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code      string
    message   string
  }
}
```

8.3 PATCH /Device('{_objectKey}')

updateDeviceDevice

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A Device.

RESPONSE MODEL - application/json

```
{
  id*           string
  token         string
  platform      string
  model         string
  platformVersion string
  appName       string
  appVersion    string
  _objectKey*   string
}
```

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code      string
    message   string
  }
}
```

9. LOGIN

9.1 GET /Login

getLogin

REQUEST

QUERY PARAMETERS

NAME	TYPE	DESCRIPTION
\$filter	string	
\$top	integer	
\$skip	integer	
\$orderby	string	
\$expand	string	
\$inlinecount	string	

RESPONSE

STATUS CODE - 200: List of Login

RESPONSE MODEL - application/json

```
{
  value [{
    Array of object:
    id*                string
    loginProvider*     string
    providerDisplayName* string
    providerKey*        string
    user                string
    _objectKey*         string
    user_name           string
  }]
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

9.2 POST /Login

createLoginLogin

REQUEST

RESPONSE

STATUS CODE - 201: Created entity

RESPONSE MODEL - application/json

```
{
  id*                string
  loginProvider*     string
  providerDisplayName* string
  providerKey*       string
  user               string
  _objectKey*        string
  user_name          string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

10. LOGIN('{_OBJECTKEY}')

10.1 GET /Login('{_objectKey}')

getLoginLoginById

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A Login.

RESPONSE MODEL - application/json

```
{
  id*           string
  loginProvider* string
  providerDisplayName* string
  providerKey*  string
  user          string
  _objectKey*   string
  user_name     string
}
```

STATUS CODE - default: Unexpected error

*_objectKey	string	

RESPONSE

STATUS CODE - 200: A userSecurableManager.

RESPONSE MODEL - application/json

```
{
  id*           string
  securable     string
  user          string
  _objectKey*   string
  securable_name string
  user_name     string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

52.2 DELETE /userSecurableManager('{_objectKey}')

deleteUserSecurableManageruserSecurableManager

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

52.3 PATCH /userSecurableManager('{_objectKey}')

updateUserSecurableManageruserSecurableManager

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A userSecurableManager.

RESPONSE MODEL - application/json

```
{
  id*           string
  securable     string
  user          string
  _objectKey*   string
  securable_name string
  user_name     string
}
```

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

53. USERSECURABLES

53.1 GET /userSecurables

getUserSecurables

REQUEST

QUERY PARAMETERS

NAME	TYPE	DESCRIPTION
\$filter	string	
\$top	integer	
\$skip	integer	
\$orderby	string	
\$expand	string	
\$inlinecount	string	

RESPONSE

STATUS CODE - 200: List of userSecurables

RESPONSE MODEL - application/json

```
{
  value [{
    Array of object:
    id*           string
    name*         string
    application   string
    _objectKey*   string
    application_name string
  }]
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

53.2 POST /userSecurables

createUserSecurablesuserSecurables

REQUEST

RESPONSE

STATUS CODE - 201: Created entity

RESPONSE MODEL - application/json

```
{
  id*           string
  name*         string
  application    string
  _objectKey*   string
  application_name string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

54. USERSECURABLES('{_OBJECTKEY}')

54.1 GET /userSecurables('{_objectKey}')

getUserSecurablesuserSecurablesById

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A userSecurables.

RESPONSE MODEL - application/json

```
{
  id*           string
  name*         string
  application   string
  _objectKey*   string
  application_name string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

54.2 DELETE /userSecurables('{_objectKey}')

deleteUserSecurablesuserSecurables

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

54.3 PATCH /userSecurables('{_objectKey}')

updateUserSecurablesuserSecurables

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A userSecurables.

RESPONSE MODEL - application/json

```
{
  id*           string
  name*         string
  application   string
  _objectKey*   string
  application_name string
}
```

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

55. USERLIST

55.1 GET /userlist

getUserlist

REQUEST

QUERY PARAMETERS

NAME	TYPE	DESCRIPTION
\$filter	string	
\$top	integer	
\$skip	integer	
\$orderby	string	
\$expand	string	
\$inlinecount	string	

RESPONSE

STATUS CODE - 200: List of userlist

RESPONSE MODEL - application/json

```
{
  value [{
    Array of object:
    id*      string
    name     string
    _objectKey* string
  }]
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

55.2 POST /userlist

createUserlistuserlist

REQUEST

RESPONSE

STATUS CODE - 201: Created entity

RESPONSE MODEL - application/json

```
{
  id*           string
  name          string
  _objectKey*   string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

56. USERLIST('{_OBJECTKEY}')

56.1 GET /userlist('{_objectKey}')

getUserlistuserlistById

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A userlist.

RESPONSE MODEL - application/json

```
{
  id*      string
  name     string
  _objectKey* string
}
```

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

56.2 DELETE /userlist('{_objectKey}')

deleteUserlistuserlist

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```

56.3 PATCH /userlist('{_objectKey}')

updateUserlistuserlist

REQUEST

PATH PARAMETERS

NAME	TYPE	DESCRIPTION
*_objectKey	string	

RESPONSE

STATUS CODE - 200: A userlist.

RESPONSE MODEL - application/json

```
{
  id*      string
  name     string
  _objectKey* string
}
```

STATUS CODE - 204: Empty response.

STATUS CODE - default: Unexpected error

RESPONSE MODEL - application/json

```
{
  error {
    code    string
    message string
  }
}
```
